USE OF SERVICES

See our Price Guide at pages 6-8 for details of your inclusive allowances. Your monthly payment will include some or all of the additional benefits described below.

Your monthly payment is for using mobile internet on your phone, for checking voicemail (including visual voicemail if you have an iPhone) and an allowance of minutes and texts. You can use your minutes and texts:

- When **in the UK** to call and text customers of UK mobile networks and UK landlines starting with 01, 02 & 03 (mobile and landline numbers to Jersey, Guernsey and Isle of Man not included).
- When **in the EU/EEA** to call and text customers of UK mobile networks and UK landlines starting with 01, 02 & 03 (including landlines and mobiles in Jersey, Guernsey and the Isle of Man).
- When **in the EU/EEA** (including Jersey, Guernsey and the Isle of Man) to call and text customers of EU/EEA mobile networks and landlines.

	Calling from the UK	Calling from EU/EEA/Switzerland (including Jersey, Guernsey & the Isle of Man)
Calling to the UK (landlines starting with 01, 02 & 03, and mobiles)	Included	Included
Calling to EU/EEA/Switzerland (including Guernsey, Jersey & Isle of Man)	EU/EEA not included, Guernsey, Jersey & Isle of Man not included	Included (to landlines and mobiles)

For example:

- Calls and texts from the UK to France are not included in your allowance, as this is an international call.
- Calls and texts from France to mobiles & landlines in the UK are included as part of your roaming allowances.
- Calls and texts within the EU/EEA/Switzerland to mobiles & landlines (so for example from France to France, or from France to Spain) are included as part of your roaming allowances.

You cannot use your inclusive minutes and texts to call and text customers of mobile networks and landlines in the EU/EEA/Switzerland when in the UK. Allowances do not include premium rate numbers anywhere in the UK or the EU and will be charged at your normal plan rate.

Calls to numbers starting with 08, 070, 09 and 118 are not included in your inclusive allowance of minutes. Calls to numbers starting with 084, 087, 09 and 118 will be split into two parts:

- the Access Charge – this is the amount that is charged by EE as set out in the Price Guide below (page 7);
- the Service Charge – this is charged by the organisation you are calling. The amount of the Service Charge is set by them and should be stated anywhere the number is advertised.

The Access Charge is added to the Service Charge to give your total cost of call. For further information <https://ee.co.uk/help/help-new/billing-usage-and-top-up/call-text-and-data-charges/charges-for-calling-non-geographic-numbers>.

Your inclusive data allowance is for use when in the UK and in the EU. When in the EU you may be subject to a data fair use policy (see below for details).

These plans are for normal person to person use from your phone and are subject to your acceptance of our standard terms and conditions for pay monthly services. We monitor use in accordance with those terms.

The terms state that you can't use these plans to sell access to our network to anyone else. They are also not to be used for anything unlawful or to send nuisance communications. We'll decide that you're breaking these terms if you text and call more than 300 different numbers in a month. Remember, we're free to decide that other types of use may also be breaking this term. If you do break this term, we'll contact you and ask you to stop and if you don't then we may disconnect your SIM card from our network.

UK USE

You'll need 3G, 4G or 5G coverage to use mobile internet on your phone and a compatible device. You can only use mobile internet on our 4G network if you're within a 4G enabled area and to use 5G you need to be within a 5G enabled area. 5G is only available in a limited number of locations and you must be on a 5G plan (and have a 5G compatible device) to access it. You can and should check expected coverage via our coverage maps at ee.co.uk/coverage. Your phone may not be compatible with other UK networks or networks outside the UK. Whether you're on 3G, 4G or 5G, coverage and speeds will vary depending on your location, the number of people on the network and other factors such as weather and geography. If you're on a 5G plan, in some very limited circumstances right at the edge the 5G-enabled area and when you are indoors, your device may show you're connected to the 5G network when you're not. You'll still receive our best available speed at this location.

Each mobile internet option gives you a data allowance to use each month. We'll let you know by text message when your data is running low (when 80% of your allowance is used up) and when it has run out. You can use mobile internet on your phone to make internet phone calls ('VoIP') use your phone as a modem ('tethering') and, you can use mobile internet on your phone for peer to peer file sharing but your speed will be slower than usual as we monitor our network to protect it for all customers. Please see the network management policies on our website for more information. We won't charge you any more if you reach your monthly data allowance, but you won't be able to use mobile internet. To continue to use mobile internet after you've used up your current month's data allowance, you'll need to buy one of our data add-ons which will allow you to use mobile internet until your next bill date.

When in the UK, if you have a compatible device and the correct software, you can use your minutes allowance to make calls using Wi-Fi Calling (see ee.co.uk/wificalling for terms).

EUROPEAN ROAMING

Inclusive roaming benefits are available to UK based customers only.

Our **Europe Roaming Zone** presently includes: Austria, Azores, Belgium, Bulgaria, Croatia, Cyprus*, Czech Republic, Canary Islands, Denmark, Estonia, Finland, France, French Guyana, Germany, Gibraltar, Greece, Guadeloupe, Guernsey, Hungary, Iceland, Ireland, Isle of Man, Italy, Jersey, Latvia, Liechtenstein, Lithuania, Luxembourg, Madeira, Malta, Martinique, Mayotte, Monaco, Netherlands, Norway, Poland, Portugal, Reunion Islands, Romania, San Marino, Saint Martin (French), Saint Barthelemy, Slovakia, Slovenia, Spain, Sweden, Switzerland and Vatican City (Italy).

* Note Turkey (you may wish to connect to a Turkish network in Northern Cyprus) and Andorra are outside the EU/EEA and not included in our European Roaming Zone. Therefore, any calls made from either of these countries, or from Northern Cyprus if connected to a Turkish network will be chargeable.

You can call 150 free of charge when roaming in the EU/EEA to get information about our charges. Emergency services can be contacted within the EU/EEA by calling 112.

If your device is compatible with Wi-Fi Calling, you will not be able to use it for Wi-Fi Calling when outside the UK.

Fair use amount

If your domestic data allowance is greater than 15GB, a fair usage policy of 15GB whilst roaming in our Europe or Rest of World Roaming Zones will apply (i.e. you can use up to 15GB from your allowance while roaming). Once you've used your fair use policy amount when roaming, we will notify you and surcharges will apply to continue using data when roaming in our Europe and Rest of World Zones.

The surcharges will last until you exhaust the remainder of your domestic data allowance, return to the UK, or until your next bill date (whichever is earlier).

- 1MB £0.0060

Note whilst the charge displayed above is per MB, EE charge on a per KB basis (i.e. 1KB = £0.0000060 or 0.00060p).

Whether you have a FUP and subject to the above surcharges after exhausting your fair use amount, or you have a domestic allowance of 15Gb or less and therefore not subject to the fair use amount, if you use all your domestic data allowance when roaming outside the UK you'll need to buy an out of bundle UK/EU data add-on to continue using data. Details of these data add-ons (and the surcharges mentioned above) can be found in the [EE Monthly Plan Terms And Price Guide](#).

So, for example, if your data allowance is 25GB you can use a maximum of 15GB when roaming:

Scenario 1	Scenario 2	Scenario 3
You've used 8GB in the UK before going abroad	You've used 8GB in the UK before going abroad	You've used 15GB in the UK before going abroad
You use the maximum 15GB outside the UK	You use 5GB while roaming, out of a maximum 15GB	You'll have 10GB maximum to use outside the UK
After you have used 15GB data outside the UK, surcharges will apply for you to keep using data	You'll have 12GB left to use in the UK when you come back	After you have used the remaining 10GB of your allowance you will need to buy a data add-on to use more data whether you are in the EU or the UK. If you use more than 5GB of the data from the add-on while in the EU, surcharges will apply for you to keep using data.
You'll have 2GB left to use in the UK when you come back		

Speeds

All our customers can enjoy the superfast speeds supported by our roaming partners abroad. But please note: Speeds outside the UK always depend on the network you connect to and 4G and 5G may or may not be available. We aren't responsible for the speeds or coverage you get outside the UK. As in the UK, your coverage and speeds will vary depending on your location, the number of people on the network and other factors such as weather and geography.

Stable links

We will monitor your stable link to the UK based on a combination of your presence in the UK and usage in the EU/EEA/Switzerland. We will consider you to have a stable link to the UK if more than 50% of mobile services are used in the UK within a four-month period. In respect of your presence in the UK, more than 50% of your time must be spent in the UK with every day that you log into the UK or overseas network being counted. Days where you have not logged on to any network (e.g. device is switched off) will not be taken into account in determining whether there is a stable link to the UK. If your usage abroad in the EU/EEA/Switzerland exceeds this, you will be alerted by text, and after a 2-week period we may charge you for services you use. Where your usage no longer indicates a risk of abusive or anomalous use we will stop charging you the surcharge. Examples of this are where you stop permanent use and resume periodic use when roaming in the EU. Where we have evidence of organised reselling of our UK SIM cards to persons not residing in or having stable links to the UK we may block the SIM card and roaming services."

You may not resell our UK SIM cards to persons not residing in or having stable links to the UK. If you do, we may block the SIM card and roaming services.

Complaints

If you have any concerns about EE's FUP policy, please get in touch with us using your preferred contact method at our [Ways to Complain](#) page. Please see our [Complaint Code of Practice](#) for full details of our complaints procedure.
